Expert in lawn care, gardening, and hardscape, consistently delivering high-quality results through meticulous attention to detail. Proven ability to manage diverse landscaping tasks, including soil amendment and tree care, while maintaining strong client relationships. Committed to enhancing outdoor spaces and ensuring customer satisfaction.

Work Experience

Property Preservation/ Maintenance

OCD Landscaping | Niagara Falls, NY

May 2020 to Present

I own and operate a very small landscaping business. Most of my clients hire us for weekly or biweekly lawn maintenance. The typical mow, trim, blow with a healthy dose of meticulous edging and attention to detail that sets us apart from the crowd. I clean up flower beds, weed, mulch, fertilize, plant and maintain bulbs, seeds, live plants, cuttings, trees and shrubs and well as removing old, damaged, dead, or otherwise unwanted specimens. As part of planting or in the process of installing or reworking a bed, garden, lawn etc. we amend soil thru addition of compost, manure, sand, peat moss, straw etc. Attention to detail is my stock in trade, and pride in the finished product. These together drive me to work tirelessly in pursuit of my goals. I truly love the work and feel blessed to be able to do it for a living.
